Index to Volume I
Subjects

Acknowledgments, peer reviewers, 387
Administration, nursing, higher education, dean(s) dealing with tenured faculty, 9
dean(s), legacy of, 2
organizational models for, 191
practices of, phenomenological approach to study of, 269
promotion of scholarship, 8
research, faculty, role of in promoting, 125
research on, 72
role of, 5
faculty issues, promoting research by, 258
legal authority of administrators, 4
preparation of administrators by nursing, 157
student/employee evaluation process, confidentiality of, 190
education and service, top-level, nurses as executives, 255
research, promotion of, role of in, 129
master's degree in, data base management system for tracking candidates for, 306
service, labor relations, collective bargaining, multilateral, implications of, 275
Asthma, students with, program for teachers of, 55

Baccalaureate programs, nursing, administrative structure and student recruitment, 172
applicant review process for, evaluation of, 300
faculty of, research by, promotion of, 258
generic, trends in, data on, 369
prediction of success on the NCLEX-RN, use of admission data for, 364
liberal education in (Editorial), 253

Chronic illnes(es), loneliness and spiritual well-being in adults with, 79
Community health, student clinical practice placement, skid row shelter, Spokane, WA, 217
Comparable worth, nursing and, implications of, 131
need for, 186
Computer(s), data base management system, master's candidates in nursing administration, tracking of, 306
Confidentiality, customary practices, with colleagues and patients, 86
student/employee evaluation data, 190

Dean(s), faculty issues, organization meetings, role of at, 191
legacy of, 2
practices of, phenomenological approach to study of, by novice deans, 269
promotion of scholarship, 8
research, faculty, promotion of, role of in, 125
research on, 72
role of, 5
tenured faculty, dealing with, 9
Death/dying, stress related to, strategies for reduction of, in student course on, 262
Doctoral degree programs, nursing, quality control of, 69
Conference Proceedings, 90
survey of need for, 23

Education, nursing, administration, dean(s), legacy of, 2
promotion of scholarship, 8
role of, 5
legal authority of administrators, 4
baccalaureate programs, administrative structure and student recruitment, 172
applicant review process for, 300
clinical decision making, assessment of in, 221
evaluation of quality of, "value-added" approach to, 356
faculty of, research by, promotion of, 258
faculty tenure in, descriptive study of, 9
generic, trends in, data on, 369
liberal education and (Editorial), 253
prediction of success on the NCLEX-RN, use of admission data for, 364
clinical practice placements, skid row shelter, Spokane, WA, 217
colleague relationships in, 188
computers, data base management system, tracking master's candidates in nursing administration, 306
doctoral programs, quality control of, 69
Conference Proceedings, 90
survey of need for programs in, 23
endowed chairs in, survey of, 145
ethics, unethical student behavior, classroom and clinical, 230
evaluation of, evaluation of, "value-added" approach to, 67
faculty issues, faculty practice, 256
socialization of nurses into faculty role, 259
tenured faculty, deans and, 9
funding for, federal, Medicare, 7
graduate programs, faculty tenure in, descriptive study of, 9
research center within college of nursing, 325
review of trends in, quality of, 293
hospital vs. collegiate programs, Medicare funding effect on, 7
instructional methodology preparation of administrators by nursing, 157
international students in the U.S., 127
leadership in, future options for, 244
level of preparation, research activities according to, 75
liberal arts in, past and future of (Editorial), 183
master's degree programs, nursing administration, data base management system for tracking, 306
outreach programs in, increased availability of master's programs due to, 235
specialist clinician preparation, 41

nurses as health educators, world view of, 326
professional, education vs. practice expectations, 73
nature and characteristics of, 381
philosophy of, 126
programs in, fiscal status of, 336
research programs in, targeted, 187
schools of nursing, in the university/college setting, 315
social work and, collegial relationship between departments, 322
student/employee evaluation data, confidentiality of, 190
Ethical issues, bioethics, professional practice and, 185
confidentiality, customary practices, with colleagues and patients, 86
education, students, unethical classroom and clinical behavior, 230
nursing practice, moral choices in, 128
values and rights, humanization of health care, 71

Faculty issues, nursing, endowed chairs in, 145
higher education, mobility of, 138
nursing practice by, 256
socialization of nurses into faculty role, 259
tenure, descriptive study of, 9
tenured faculty, deans and, 9
Financial issues, collective bargaining, multilateral, implications for nursing, 275
comparable worth, implications of for nursing, 131
need for, 186
health care, financing mechanisms for, impact on nursing services, 34
nursing education programs, fiscal status of, 336
Medicare funding for, 7

Gerontological nursing, scientific basis of, evolution of, 328

Health and Human Services Student Award, 54
Health policy(ies), comparable worth, implications of for nursing, 131
need for in nursing, 186
doctoral programs, quality control of, Conference Proceedings, 67
education, nursing, Medicare funding for, 7
